This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau. This International Search Report consists of a total of	Applicant		
This international Search Report consists of a total of	WARNER-LAMBERT COMPANY et	al.	
It is also accompanied by a copy of each prior art document cited in this report. 1. Basis of the report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing: contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in computer readable form. the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished. the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished. Unity of invention is tacking (see Box II). With regard to the title, the text is approved as submitted by the applicant. X the text has been established by this Authority to read as follows: SCREENING FOR ALPHA2DELTA-1 SUBUNIT BINDING LIGANDS With regard to the abstract, X the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority. Submit the text has been established with the abstract is Figure No. None of the figures.			uthority and is transmitted to the applicant
a. With regard to the language, the international search was carried out on the basis of the International application in the language in which it was filed, unless otherwise indicated under this item. the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing; contained in the international application in written form. filed together with the international application in computer readable form. furnished subsequently to this Authority in written form. the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished. the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished. Unity of invention is lacking (see Box II). Unity of invention is lacking (see Box II). With regard to the title, the text is approved as submitted by the applicant. X the text is approved as submitted by the applicant. X the text is approved as submitted by the applicant. X the text is approved as submitted by the applicant. With regard to the abstract, X the text is approved as submitted by the applicant. With regard to the abstract, X the text is approved as submitted by the applicant. the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority. Some of the drawings to be published with the abstract is Figure No. None of the figures.	Francis Control Contro		is report.
the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)). b.
